2016: A Year of Deep Collaboration and Deeper Impact

This year marks the 20th Anniversary of the HNH Foundation.

We are proud to continue and deepen our longstanding mission: to improve the health and wellness of New Hampshire’s population, with a focus on its most vulnerable children.

In 2015, we expanded our funding priorities to include reducing food insecurity and reducing and preventing childhood trauma. Since that time, over $800,000 in grant awards have been awarded for programs that increase access to local, affordable, and healthy food, and that prevent or ameliorate childhood trauma, abuse, neglect, and exposure to violence.

In recent years, the Board of Directors has been interested in deepening the impact of the Foundation’s grantmaking through collaborating with other funders. While we have co-funded initiatives in the past, our work in 2016 was focused on a more intentional collaboration. In partnership with the Endowment for Health and the New Hampshire Charitable Foundation, the HNH Foundation funded efforts to strengthen advocacy and build leadership capacity to improve the health outcomes of the residents of New Hampshire. We are convinced that deeper collaboration leads to deeper impact and we are excited about this opportunity to enhance and strengthen the field. We invite you to learn more about our work and grantee partners in this Annual Report. Beyond the specific grant awards, we hope that you will consider us a partner in the coming year.

We welcome your energy, ideas, and the synergy that comes from close cooperation, shared expertise, and careful listening.

Farewell from Martha McLeod, Board Chair

It has been my pleasure to serve on the HNH Foundation Board for seven years and to serve as Chair for the past four years. This opportunity has given me a great sense of satisfaction and enjoyment. I have learned that being a strong foundation board is hard work, but is essential for effectively stewarding the charitable assets with which the foundation is entrusted — ultimately shaping the impact a foundation will have on the community it serves. I believe the HNH Foundation Board can take full advantage of its record and accomplishments. I am confident the Board will use its collective experience and expertise in contributing to a bright future for the people of New Hampshire.
Keynote Speaker Bill Brown Addresses Childhood Trauma

The HNH Foundation highlighted its new funding priority on reducing and preventing childhood trauma at its Annual Event on September 20, 2016 in Concord. Over 130 participants listened to a keynote address by Bill Brown, co-owner of Confluence Behavioral Health (Springfield, Vermont) about the impact of Adverse Childhood Experiences.

Bill Brown cited experts in the field who believe that childhood trauma is the single greatest unaddressed health care challenge facing our nation today. He spoke about the importance of creating a healthy and hopeful transition from childhood to adulthood that reduces toxic stress and builds resiliency, and he applauded the HNH Foundation for its leadership in funding programs that support this goal.

The stress of childhood abuse, neglect and exposure to violence – called “toxic load” – has a measurable impact on our bodies and brain development. Bill Brown cited data that show childhood trauma affects an individual’s overall life expectancy, often cut short by some 20 years.

Krystal Alpers Receives 2016 Sandi Van Scoyoc Legacy Award

Krystal Alpers, Parks and Recreation Director in Franklin, NH, was the recipient of the 2016 Sandi Van Scoyoc Legacy Award, made to a New Hampshire organization or individual who exemplifies a commitment to best practices in support of children and families.

According to Krystal, “Franklin has many initiatives underway to increase access to healthy food and encourage families to be physically active. I want to thank the HNH Foundation as well as Franklin’s elected officials and city administration. Together, we can be true champions for our children.”
In 2016, the HNH Foundation awarded a total of $1,157,592 in grants to 18 organizations across New Hampshire. Since 1997, the HNH Foundation has invested over $12M into New Hampshire communities.

### Prevent Childhood Obesity—$183,191

**American Heart Association**  
Duration: 3 years  
Award: $150,000  
Area Served: Statewide  
To develop and advance a multi-issue policy agenda to reduce childhood obesity.

**Granite YMCA**  
Duration: 3 years  
Award: $33,191  
Area Served: Manchester  
To conduct CATCH training for staff and implement in local area early learning centers.

### Reduce and Prevent Childhood Trauma—$278,419

**TLC Family Resource Center**  
Duration: 1 year  
Award: $17,500  
Area Served: Sullivan County  
For home visiting supports and services.

**Continuing Our Commitment to Oral Health**

“The impact of the HNH Foundation funding of the WIC Pay for Prevention project for WIC clients (in Concord, Pittsfield and Keene) has been an increased awareness of the importance of early dental care, reinforcing the nutrition message they hear from WIC. This has changed dental habits for many families—more children have a dental home and have seen a dentist before age two. I’m not sure I’ve been able to capture the huge impact of the support of the HNH Foundation. The Pay for Prevention project has been very successful and is greatly appreciated by WIC families!”

- Sarah Burke, WIC & CSF Program Director, Southwestern Community Services
- Marcia Levesque, RDH
- Carrie Hoffman, Dental Assistant
### Reduce Food Insecurity—$150,480
